1 About APN Funds Management Limited

APN FM is a specialist real estate investment manager that actively manages real estate funds on behalf of institutional and retail investors since 1998.

Our approach to real estate investment is based on a “property for income” philosophy and is driven by a commitment to investment performance and outstanding service.

Our team of investment professionals possess real estate experience spanning several property cycles. Investment decisions are supported by extensive research and valuation processes that have been developed over more than two decades.

APN FM is the responsible entity for the Fund with its role being to manage the Fund in the best interests of investors and in accordance with the constitution of the Fund (‘Constitution’) and the Corporations Act. This includes, amongst other things: the day-to-day administration of the Fund (ensuring the safekeeping of the Fund’s assets; valuing the Fund’s assets on a regular basis; paying distributions, withdrawal proceeds and expenses from the Fund’s assets; processing applications, withdrawals and transfers and investor reporting) and establishing, implementing and monitoring the Fund’s investment objective and strategy. APN FM is the issuer of units in this Fund and has prepared this PDS

2 How the APN AREIT Fund works

The Fund is registered as a managed investment scheme under the Corporations Act and is structured as a trust. When you invest in the Fund, you will be issued Units. Each Unit gives you an entitlement to a share of the capital and income of the Fund. However, you are not entitled to any specific assets of the Fund. Generally, the value of your Units may rise or fall depending on the market value of the assets held by the Fund. APN FM does not guarantee the return of any capital you invested in the Fund or any specific level of return on your investments.

The Fund will invest in Australian Securities Exchange (‘ASX’) listed Australian Real Estate Investment Trusts (‘AREITs’) and cash/fixed interest.

The Fund will not invest in direct property. We will continually review and if appropriate, reweight the Fund’s investments with the objective of optimising the Fund’s distributable income.

APN FM is a Foundation Member of the mFund Settlement Service. Where and while the Fund is admitted as an mFund product under the ASX Operating Rules, investors will be able to buy and sell Units through the mFund Settlement Service. The service uses CHESS, ASX’s electronic settlement system, allowing automated issuing and withdrawing of Units through your ASX mFund participating broker. Through CHESS, your Units are held electronically and can be linked to the same Holder Identification Number (HIN) used to hold any other investments and securities you may hold through ASX. You will receive a consolidated report from ASX summarising all your holdings in listed securities as well as your Units.

The minimum initial investment, additional investment, account balance and withdrawal limits are set out in the following table. All minimum and additional investment amounts are subject to variation at our discretion.

Minimum initial investment	\$1,000
Minimum additional investment	\$500 or \$100 per month under the regular savings plan
Minimum account balance	\$1,000
Minimum withdrawal	\$1,000

Applications

You may apply for Units by sending us an application form and your application money.

Applications for Units received and accepted by us by 4 p.m. Melbourne time on a Melbourne business day (‘Business Day’) will be processed at the issue price effective for that day. Applications for Units received after 4 p.m. Melbourne time on a Business Day or on a weekend or a public holiday will be processed at the issue price effective for the next Business Day. The issue price is an amount equal to the net asset value (‘Net Asset Value’) per Unit (calculated as at that Business Day), plus any transaction costs.

Alternatively, while the Fund is admitted as an mFund Product, you can also apply for Units by placing a ‘buy order’ for Units and your application money with your ASX mFund participating broker (or your financial adviser who uses a stockbroking service on your behalf).

Your ASX mFund participating broker will direct the application request to us through CHESS. Applications for Units received and accepted by us will be forwarded by CHESS to your ASX mFund participating broker for your payment to be passed through the CHESS daily batch settlement process. We will price and allot new Units to your CHESS HIN. CHESS will notify your ASX mFund participating broker of the issue price and Units allotted. ASX will also issue a monthly CHESS statement confirming any changes in the number of Units you hold in the Fund. If, while the Fund is admitted as an mFund Product, you apply by your broker submitting an order through CHESS, the order must be received and confirmed by us by 11:15am Melbourne time on a Business Day for you to be issued Units at the issue price effective for that Business Day. Applications for Units received after this time or on a weekend or a public holiday will be processed at the issue price effective for the next Business Day.

In addition to making an initial investment, you can also make additional investments in the Fund, make regular contributions to the Fund through the regular savings plan or reinvest your distributions into the Fund. Please refer to section 8 “How to Apply” of this PDS and section 1 “How the APN AREIT Fund Works” of the Product Guide for further information on additional investments, the regular savings plan and distribution reinvestment.

Withdrawals

You may request to withdraw your Units by sending APN FM a withdrawal request.

If we receive your withdrawal request before 4 p.m. Melbourne time on a Business Day you will receive the withdrawal price effective for that day. If we receive your withdrawal request after 4 p.m. Melbourne time on a Business Day or on a weekend or public holiday, you will receive the withdrawal price effective for the next Business Day. The withdrawal price is an amount equal to the Net Asset Value per Unit (calculated as at the next Business Day), less any transaction costs.

Alternatively, while the Fund is admitted as an mFund Product, you can withdraw your investment in the Fund (minimum \$1,000) by lodging a request to withdraw Units with your ASX mFund participating broker (or your financial adviser who uses a stockbroking service on your behalf).

Your ASX mFund participating broker will direct the withdrawal request to us through CHESS. Applications for withdrawals received and accepted by us will be forwarded by CHESS to your ASX mFund participating broker with the withdrawal payment date and the withdrawal price as notified by us. When your withdrawal payment is passed through the CHESS daily batch settlement process, the Units will be cancelled and your HIN will be updated. If, while the Fund is admitted as an mFund Product, you apply for a withdrawal by your ASX mFund participating broker submitting a withdrawal request through CHESS, the request must be received and confirmed by us by 11:15am Melbourne time on a Business Day for you to receive the withdrawal price effective for that Business Day. If we receive your withdrawal request after this time or on a weekend or public holiday, you will receive the withdrawal price effective for the next Business Day.

Under the Constitution, APN FM may honour withdrawal requests at its absolute discretion. We may, at our discretion, suspend withdrawals from the Fund if we believe that it is in the best interests of investors to do so. This is permitted under the Fund's Constitution. In certain circumstances, such as where there is a voluntary suspension of withdrawals or where the Fund is not liquid (as defined in the Corporations Act), for example, because of trading restrictions on or closure of the ASX, or other unusual economic circumstances, investors may not be able to withdraw their funds within the usual period upon request.

Please refer to section 1 "How the APN AREIT Fund Works" of the Product Guide for further information on withdrawals.

Unit pricing

All unit prices are set by APN FM. The issue price and the withdrawal price effective for a Business Day are calculated as the Net Asset Value at the close of business on that Business Day divided by the total number of units on issue on that Business Day, adjusted to take account of transaction costs.

The mFund Settlement Service is not a trading facility and investors will not trade Units with other investors on the market. While the Fund is admitted as an mFund Product, you will be able to view the current price of Units at any time at www.mfund.com.au. Please also consult with your ASX mFund participating broker who may also make pricing information available through their portfolio management systems.

Unit pricing information (including the issue price and the withdrawal price) is also available by calling us on 1800 996 456 (international +61 3 8656 1000), or by visiting www.apngroup.com.au. For a copy of our unit pricing policy please refer to our website.

Please refer to section 1 "How the APN AREIT Fund Works" of the Product Guide for further information on unit pricing.

Distributions

The Fund will pay distributions to investors on a monthly basis. You will receive your distribution payment within 10 Business Days following the end of the relevant month. In each financial year, an amount at least equal to the taxable income of the Fund must be distributed or attributed to investors. The amount of distribution paid to each investor is calculated by dividing the total amount to be distributed in respect of Units, which is determined by us, by the total number of Units on issue at the distribution date and multiplying the result by the number of Units held by the relevant investor on that distribution date. APN FM reserves the right to suspend monthly distributions at any time.

You may elect to have your distributions from the Fund paid by electronic funds transfer into your nominated account, reinvested in additional Units or a combination of both. If you do not make a choice, or if a direct credit rejection occurs, then your distributions

will be reinvested by the issue of additional Units into your investment account.

Please refer to section 1 "How the APN AREIT Fund Works" of the Product Guide for further information on distributions.

Investing via a master trust or wrap account

If you invest in the Fund via an investor directed portfolio service ('IDPS') or an IDPS-like service (such as a master trust or wrap account or nominee or custody service), then you don't directly hold Units, but instead, the IDPS holds Units on your behalf. This means that investing through an IDPS may result in different conditions applying to those referred to in this PDS including in relation to additional investments, regular savings plans, switching to other funds operated by APN FM, minimum balance requirements, fees and other costs, cooling-off rights, how to transact on your investment, timing of processing of transactions and payment of distributions and withdrawals and provision of statements and other information. Please contact your financial adviser, IDPS operator or refer to the IDPS disclosure document for further information.

Use of the mFund Settlement Service

While the Fund is admitted as an mFund Product, investors will be able to make use of the mFund Settlement Service. The mFund Settlement Service introduces a range of significant benefits for investors who use ASX to access investment options. These centre on efficiency, convenience, transparency and speed.

Transfers

Investors may transfer Units held in the Fund. The purchaser of the Units must otherwise be eligible to invest in the Fund. APN FM may decline to register a transfer of Units at its sole discretion. There may be taxation implications and investors should obtain professional advice before requesting to transfer Units.

! You should read the important information about the acquisition and disposal of Units and distributions before making a decision. Go to section 1 of the Product Guide "How the APN AREIT Fund Works" at: www.apngroup.com.au/pds/areit/productguide. The material relating to acquisition and disposal of Units and distributions may change between the time when you read this PDS and the day when you acquire the product.

3 Benefits of investing in the APN AREIT Fund

By choosing to invest in the APN AREIT Fund, you are investing with a specialist real estate fund manager. APN FM has an investment track record going back to 1998. The Fund has delivered superior risk adjusted returns since inception in 2009 (compared with the S&P/ASX 300 AREIT Index return)*.

The key benefits and features of investing in the Fund are summarised below. Other benefits and features of investing in the Fund are discussed in section 2 "Benefits of investing in the APN AREIT Fund" of the Product Guide.

*Past performance is not a reliable indicator of future performance.

Active management

APN FM is an active investment manager and constructs portfolios independent of index weightings. By evaluating the potential risks and rewards of the underlying AREIT stocks and actively investing in stocks outside of the S&P/AREIT 300 Index, the Fund aims to provide greater diversification benefits and lower risk returns than the market.

Income returns

A significant focus for the management of the Fund is on generating sustainable and regular income returns. This typically means that the Fund targets those investments it believes can deliver relatively high and sustainable income returns.

Exposure to commercial real estate

Direct investment in commercial real estate can be difficult and is often beyond the realm of possibility for many retail investors due to the large capital commitment and specialist knowledge that is generally required to invest in this sector.

The Fund provides an ideal way for investors to purchase an interest in a diversified and professionally managed portfolio of quality commercial real estate. The distributions from real estate securities predominantly come from rental income of the underlying commercial properties.

Non index weightings

Unlike many property securities funds which invest significantly on the basis of the weighting of a particular property security investment in an index, the Fund will invest on the basis of APN FM's determination of the relative value and attractiveness of the property security investment.

Limiting exposure to higher risk earnings

APN FM limits the Fund's exposure to earnings derived from international assets and active business activities, such as property development or funds management type activities, which are generally considered riskier earnings. This strategy aims to deliver lower risk compared to the risk of investing in the AREIT Index.

! You should read the important information about the other features and benefits of investing in the Fund before making a decision. Go to section 2 of the Product Guide "Benefits of investing in the APN AREIT Fund" at: www.apngroup.com.au/pds/areit/productguide. The material relating to the features and benefits of investing in the Fund may change between the time when you read this PDS and the day when you acquire the product.

4 Risks of managed investment schemes

Investors should note that all investments carry risk. Different investment strategies may carry different levels of risk, depending on the assets that make up the strategy. Assets with the highest long-term returns may also carry the highest level of short-term risk.

Investors should also be aware that the value of the underlying investments of the Fund may vary. Further, the level of returns from the Fund may vary and future returns may differ from past returns. Returns from the Fund are not guaranteed and investors may lose some or all of their money. The level of risk acceptable to a particular investor will differ depending on various factors including their age, investment time frame, where other parts of their wealth are invested and their risk tolerance. Laws affecting registered managed investment schemes may change in the future.

The following is a summary of what APN FM considers to be the significant risks of investing in the Fund and its underlying investments. Investors should carefully consider the following significant risk factors that may affect the performance of the Fund before making an investment in the Fund. Please refer to section 3 of the Product Guide "Risks of managed investment schemes" for a summary of the measures implemented by APN FM to manage these significant risks.

Fund specific risks

■ Fund risk

These are risks specific to funds. These risks include that the Fund could terminate, the fees and expenses of the Fund could change, APN FM may be replaced as responsible entity and manager and APN FM's investment team may change. There is also a risk that investing in the Fund may lead to a different result than investing in the market personally because of income or capital gains accrued in the Fund and the consequences of investment by and withdrawal of other investors. If any of these risks are realised, the returns an investor receives from the Fund may be reduced.

■ Key person risk

This is the risk that key individuals are no longer able to fulfill their obligations in respect of the investment or administration of the Fund. The performance of the Fund may be dependent on the management skill of one or more individuals. If key personnel are no longer able to fulfill their obligations there is a risk that APN FM may not be able to find suitably qualified replacement personnel and the performance of the Fund may suffer as a result.

■ Regulatory risk

This is the risk that domestic or international laws or regulations are changed adversely in respect of the Fund or that regulatory supervision of transactions and reporting is performed by managers and their custodians at less than an appropriate standard. APN FM cannot predict what the outcome of any of these risks occurring may be. However, an outcome could be that the performance of the Fund is negatively impacted.

■ **Derivative risk**

Derivatives can be used to reduce risk (however the management policy is not to use them). Risks associated with investing in derivatives may include the value of the derivative failing to move in line with an underlying investment; potential illiquidity of the derivative; the Fund not being able to meet payment obligations as they arise; and counterparty risk (where the counterparty to the derivative contract cannot meet its obligations under the contract).

■ **Administration risk**

This is the risk that instructions in relation to your investments in the Fund have not been accurately relayed or processed or that fraudulent instructions are acted upon. For example, we will generally process any instructions we receive by electronic communication if it bears your investor identity and appears to have been provided by you (e.g. communications bearing a signature which is apparently yours or that of your authorised signatory or is from an email address which is apparently yours). We are not liable for any loss resulting from accepting fraudulent instructions in these circumstances. Risks may also arise in relation to transactions processed via the mFund settlement service if ASX settlement procedures have not been accurately relayed or processed.

■ **Liquidity risk**

The Fund invests in liquid assets; however, under abnormal or difficult market conditions some normally liquid assets may become illiquid. Liquidity risk is the risk that the Fund's assets will not be able to be sold readily or for their market value. This risk will be more significant if the Fund invests in a large portion of small cap AREITs which are not frequently traded. In the unlikely event the Fund becomes illiquid, investors would only be able to withdraw pursuant to a withdrawal offer made under the Corporations Act. APN FM is not obliged to make withdrawal offers.

Underlying investment risks

■ **Re-financing risk**

APN FM does not borrow directly to invest. However the AREITs in which the Fund invests may borrow. AREITs typically use financing facilities with periodic maturity dates, which require re-financing at regular intervals. In times of poor market liquidity, AREITs (as is the case with all borrowers) may find it difficult to re-finance.

The value of the Fund's investments will be negatively impacted if an underlying investment is unable to re-finance or if it can only re-finance on unfavourable terms.

■ **Investment risk**

The underlying investments of the Fund may fall in value for many reasons, such as changes in an investee entity's internal operations or management, or in the business environment in which the investee entity operates. If underlying investments fall in value, the value of an investment in the Fund will also fall in value.

■ **Market risk**

Economic, technological, political or legal conditions and market sentiment can, and do, change. These changes can lead to volatility in the value of property investments and the overall level of liquidity in the market. This can affect the value of the Fund's investments and APN FM's ability to realise the Fund's investments in an efficient manner.

■ **Interest rate risk**

Changes in interest rates can have a positive or negative impact directly or indirectly on the Fund's investment values or returns. For example, as a result of interest rate changes, the cost of the borrowings of the investee entities in which the Fund invests can decrease or increase, or the income return on a fixed interest security can become more or less favourable.

■ **Currency risk**

The Fund may invest in AREITs which hold underlying investments in countries other than Australia. If the value of overseas currencies depreciates relative to the Australian dollar, the value of the Fund may (and in most cases will) decrease correspondingly.

■ **Asset risk**

Asset risk is risk related to market changes or poor investment performance of an asset.

■ **Derivative risk**

The use of derivatives by the underlying AREITs in which the Fund is invested may cause those securities to lose money which they would not have otherwise lost had they not used derivatives. If this occurs the value of an investment in the Fund may be reduced.

■ **Information risk**

Information risk is the risk of local investors not being fully informed of pertinent, price sensitive information about offshore investments or markets. Information risk can relate to political, town planning, business or even cultural issues. Information risk is particularly relevant for AREITs with non-Australian assets. If any of the underlying investments in which the Fund invests do not have all of the necessary local information, the returns that an investor receives from the Fund and the value of their investment in the Fund may be reduced.

■ **Regulatory risk**

This is the risk that, in respect of the Fund's underlying investments, domestic or international laws or regulations are changed adversely or that regulatory supervision of transactions and reporting is performed by managers and their custodians at less than an appropriate standard.

■ **Key personnel risk**

This is the risk that key individuals responsible for the operation of underlying investments in which the Fund invests are no longer able to fulfill their obligations. The performance of the underlying investments in which the Fund invests may be dependent on the management skill of one or more particular individuals. If key personnel are no longer able to fulfill their obligations there is a risk that underlying investments in which the Fund may invest may not be able to find suitably qualified replacement personnel and the performance of the Fund's respective underlying investment may suffer as a result.

! You should read the important information in the Product Guide about the risks of investing in the Fund before making a decision. Go to section 3 of the Product Guide "Risks of managed investment schemes" at: www.apngroup.com.au/pds/areit/productguide. The material relating to the risk of investing in the Fund may change between the time when you read this PDS and the day when you acquire the product.

5 How we invest your money

This section summarises how the Fund invests its money.

Investment return objective:	To provide investors with a consistent, relatively high level of income combined with some capital growth, sourced primarily from AREITs listed on the ASX. The Fund aims to: <ul style="list-style-type: none"> ■ have a gross annual income yield (before management fees and expenses that equates to at least 110% of the average yield of the S&P/ASX 200 AREIT Index Dividend Yield; ■ have a tax advantaged income component of distributed income; ■ provide investors with a level of capital growth which at least matches increases in the Consumer Price Index (CPI) over a 5 - 7 year time horizon; and ■ provide lower than market volatility. 		
Investment strategy:	The Fund will invest in AREITs and cash/fixed interest. The Fund will not invest in direct property. We will continually review and, if appropriate, reweight the Fund's investments with the objective of optimising the Fund's distributable income. The Constitution allows us to borrow on behalf of the Fund. It is our current intention that the Fund will not undertake direct borrowing. The entities in which the Fund will invest may borrow. It is our current policy not to use derivatives for leverage or risk management purposes within the Fund. We will inform you if this policy changes. The entities in which the Fund will invest may use derivatives.		
Target asset allocations:	Assets	Long term asset allocation ranges	Indicative asset allocation
	Units or shares in AREITs	90-100%	98%
	Cash/Fixed interest	0-10%	2%
Performance benchmark:	S&P/ASX 200 AREIT Index Dividend Yield		
Minimum suggested investment timeframe:	5-7 years		
Type of investor to whom this investment is suited:	Medium to long term investors who are looking for an income focussed investment and the potential for some long term capital growth.		
Risk rating:	The Fund is a medium risk investment. This means the risk of your investment falling in the short term is higher than an investment in a managed investment scheme that invests in assets such as cash or fixed interest securities. Conversely, an investment in the Fund over the medium to long term offers potentially higher returns than cash or fixed interest investments.		
Changes to the Fund:	APN FM reserves the right to terminate the Fund or change the Fund's investment objectives (including the performance benchmark, asset allocation, investment objectives and investment style and approach) without providing prior notice to investors in some cases. We will inform investors of any material changes to the Fund in accordance with the law.		

APN FM takes account of labour standards, environmental, social or ethical considerations (ESG) in the selection, retention or realization of investments in the Fund to the extent that they may financially affect the investment. Decisions about whether to buy, hold or sell investments are based primarily on qualitative and quantitative factors. ESG issues are taken into account by us in making these decisions as part of our investment process.

Warning: When making a decision whether to invest in the Fund, you should consider the likely investment return, the risk and your investment timeframe.

6 Fees and costs

DID YOU KNOW?

Small differences in both investment performance and fees and costs can have a substantial impact on your long term returns. For example, total annual fees and costs of 2% of your account balance rather than 1% could reduce your final return by up to 20% over a 30 year period (i.e. reduce it from \$100,000 to \$80,000). You should consider whether features such as superior investment performance or the provision of better member services justify higher fees and costs. You may be able to negotiate to pay lower contribution fees and management costs where applicable. Ask the fund or your financial adviser.

TO FIND OUT MORE

If you would like to find out more, or see the impact of the fees based on your own circumstances, the Australian Securities and Investments Commission (ASIC) website (www.moneysmart.gov.au) has a managed funds fee calculator to help you check out different fee options.

You can use the information contained in the following template to compare costs between different simple managed investment schemes. Fees and costs can be paid directly from your account or be deducted from investment returns.

Warning: Fees to a financial adviser may be payable if a financial adviser is consulted. Please refer to the statement of advice provided by your financial adviser and section 4 of the Product Guide for further details.

Additional fees may also be payable directly to your ASX mFund participating broker (or your financial adviser who uses a stockbroking service on your behalf) for using the mFund Settlement Service and investors should consider the financial services guide provided by your broker (or adviser).

Type of fee or cost	Amount
Fees when your money moves in or out of the Fund	Nil
Establishment fee	Nil
Contribution fee	Nil
Withdrawal fee	Nil
Exit fee	Nil
Management costs¹	
The fees and costs for managing your investment	Up to 0.85% p.a. of the Net Asset Value of the Fund. ² <ul style="list-style-type: none"> The management costs comprise the investment management fees, expense recoveries and indirect costs and are capped at 0.85% p.a. of the Net Asset Value of the Fund.

¹ Management costs include indirect costs estimated to be 0.00% based on APM FM's reasonable estimate of such costs at the date of the PDS.

² The amount of this fee can be negotiated for wholesale clients as defined under the Corporations Act and in other circumstances permitted by law.

Worked example of annual fees and costs

Example - APN AREIT Fund		Balance of \$50,000 with total contributions of \$5,000 during the year
Contribution Fees	Nil	For every additional \$5,000 you put in, you will be charged \$0 Contribution fee.
PLUS Management Costs	0.85%	AND, for every \$50,000 you have in the Fund, you will be charged \$425 each year.
EQUALS Cost of Fund		If you had an investment of \$50,000 at the beginning of the year and you put in an additional \$5,000 during that year, you would be charged fees of: \$425 to \$467.50* What it costs you will depend on the investment option you choose and the fees you negotiate with your financial adviser.

* The amount of management costs will depend on when the additional \$5,000 was contributed to the Fund.

Changes to fees and charges

The above fees and charges are current at the date of this PDS. We may increase fees up to the maximum amounts permitted under the Constitution of the Fund or by amending the Constitution of the Fund (subject to investor approval) to increase the current permitted maximums. However, we will provide investors with at least 30 days' notice of any increases in fees before they take effect, to allow investors to make other arrangements if they wish (where possible).

Fee calculator

The Australian Securities and Investments Commission (ASIC) website (www.moneysmart.gov.au) has a managed investment fee calculator. You can use the fee calculator to calculate the effect of fees and costs on your account balances.

! You should read the important information about Fees and Costs before making a decision. Go to section 4 of the Product Guide "Fees and Costs" at: www.apngroup.com.au/pds/areit/productguide. The material relating to Fees and Costs may change between the time when you read this PDS and the day when you acquire the product.

7 How managed investment schemes are taxed

Warning: Investing in a registered managed investment scheme is likely to have taxation consequences. Before investing in the Fund, you are strongly advised to seek professional tax advice.

Registered managed investment schemes do not ordinarily pay tax on behalf of their investors. Investors are generally assessed on any income and capital gains generated by the registered managed investment scheme.

! You should read the important information about taxation of the Fund before making a decision. Go to section 5 of the Product Guide "How managed investment schemes are taxed" at: www.apngroup.com.au/pds/areit/productguide. The material relating to taxation of the Fund may change between the time when you read this PDS and the day when you acquire the product.

Investing through an IDPS

To invest in the Fund through an IDPS or IDPS-like service, simply complete the documents which the IDPS operator requires. Any enquiries regarding investing in the Fund should be directed to your IDPS operator.

Regular savings plan

To make regular investments in the Fund, you must elect to participate in the regular savings plan by completing the direct debit request form accompanying this PDS and nominate the amount to be invested under the plan and the account from which funds will be deducted. The minimum regular savings amount is \$100 per month under the regular savings plan. For more information on the regular savings plan, please refer to section 1 "How the APN AREIT Fund Works" of the Product Guide.

Distribution reinvestment

You can choose to automatically reinvest your distributions for Units by instructing us in writing (including by facsimile and email).

Units issued for reinvested distributions will be issued at the issue price calculated at the end of the relevant distribution period.

Cooling off

If you invest directly in the Fund, you will be entitled to a 14 day cooling off period commencing from the earlier of:

- the date you receive confirmation of your investment; or
- 5 days after the issue of Units to you as per your application.

If, during this 14-day period, you decide that you no longer wish to invest in the Fund, you should notify us in writing (by letter, including your signature).

The amount returned to you will be adjusted to account for any increase or decrease in the unit price from the time APN FM issued the Units to you to the time APN FM receives your request to cancel the investment as well as any relevant tax or administrative costs in relation to the cancellation of your investment.

If you invest in the Fund through an IDPS, you should refer to the relevant guide or offer document provided by the operator of that service for details of your rights to a cooling off period.

If you have a complaint, you may write to us (including name, address and investor number) or call us using the details on the front page of this PDS. We are required to acknowledge receipt of a complaint as soon as practicable. We must give proper consideration to the complaint and must act in good faith to deal with a complaint. The determination relating to the complaint, the remedies (if any) available to you and information regarding any further avenue for complaint must be communicated within 45 days of receipt of the complaint.

We are a member of the Financial Ombudsman Service Limited ("FOSL"). FOSL is authorised to deal with complaints that cannot be resolved with us. You can contact FOSL on 1800 367 287, or GPO Box 3, Melbourne, Victoria, 3001. If you are investing through an IDPS, then enquires and complaints should be directed to the operator of that service, not APN FM.

New Zealand investors

The Fund is available for investment by New Zealand investors. Please refer to section 8 "Investing by New Zealand investors" of the Product Guide and over page for further information.

! You should read the important information about investment by New Zealand investors before making a decision. Go to section 8 of the Product Guide "Investing by New Zealand Investors" at: www.apngroup.com.au/pds/areit/productguide. The material relating to investment by New Zealand investors may change between the time when you read this PDS and the day when you acquire the product.

IMPORTANT NOTICE FOR NEW ZEALAND INVESTORS

Warning statement:

This offer to New Zealand investors is a regulated offer made under Australian and New Zealand law. In Australia, this is Chapter 8 of the Corporations Act 2001 (Aust) and regulations made under that Act. In New Zealand, this is subpart 6 of Part 9 of the Financial Markets Conduct Act 2013 and Part 9 of the Financial Markets Conduct Regulations 2014.

This offer and the content of the offer document are principally governed by Australian rather than New Zealand law. In the main, the Corporations Act 2001 (Aust) and the regulations made under that Act set out how the offer must be made.

There are differences in how financial products are regulated under Australian law. For example, the disclosure of fees for managed investment schemes is different under the Australian regime.

The rights, remedies, and compensation arrangements available to New Zealand investors in Australian financial products may differ from the rights, remedies, and compensation arrangements for New Zealand financial products.

Both the Australian and New Zealand financial markets regulators have enforcement responsibilities in relation to this offer. If you need to make a complaint about this offer, please contact the Financial Markets Authority, New Zealand (<http://www.fma.govt.nz>). The Australian and New Zealand regulators will work together to settle your complaint.

The taxation treatment of Australian financial products is not the same as for New Zealand financial products.

If you are uncertain about whether this investment is appropriate for you, you should seek the advice of an appropriately qualified financial adviser.

Additional warning statement: currency exchange risk

The offer may involve a currency exchange risk. The currency for the financial products is not New Zealand dollars. The value of the financial products will go up or down according to changes in the exchange rate between that currency and New Zealand dollars. These changes may be significant.

If you expect the financial products to pay any amounts in a currency that is not New Zealand dollars, you may incur significant fees in having the funds credited to a bank account in New Zealand in New Zealand dollars.

Additional warning statement: dispute resolution process

The dispute resolution process described in this offer document is available only in Australia and is not available in New Zealand.

The above are prescribed statements required pursuant to the Financial Markets Conduct Regulations 2014.

This Product Guide ('Guide') provides information additional to the information included in the PDS for the APN AREIT Fund ARSN 134 361 229 dated 31 January 2017. The information in the Guide forms part of that PDS.

The information provided in this Guide is general information only and does not take into account your personal financial situation or needs. You should obtain financial advice tailored to your personal circumstances before making a decision to invest in the Fund.

Unless otherwise provided, terms used in this Guide have the same definition as in the PDS.

1 How the APN AREIT Fund works

Regular savings plan

The regular savings plan provides you with the opportunity to regularly invest in the Fund. The minimum regular savings amount is \$100 per month under the regular savings plan. The minimum regular savings amount is subject to variation at our discretion.

To make regular investments in the Fund, you must elect to participate in the regular savings plan by completing the direct debit request form accompanying the PDS and nominate the amount to be invested under the plan and the account from which funds will be deducted.

We will arrange for the amount to be automatically drawn from your bank, building society or credit union account, normally on the 21st day of each month (or the next Business Day if the 21st day of the month is a weekend or public holiday). You can make changes to the regular savings amount and your account information at any time by notifying us in writing at least 14 Business Days before the next investment is due.

Normal management costs and transaction costs will apply to investments made through the regular savings plan (see section 4 "Fees and Costs" of this Guide). In addition, bank transaction fees and government charges may apply. We may change or terminate the regular savings plan by providing you with prior written notice. Whilst you invest under the regular savings plan, we will provide you with a copy of any updated PDS for the Fund and any other updates as required by the law.

Confirmation

Confirmation of the number of Units issued to you following your initial investment, additional investment or contribution under the regular savings plan will be forwarded to you as soon as is reasonably practicable, which will usually be within five Business Days of Units being issued.

Electronic instructions

If you instruct us by electronic means, such as facsimile, email or internet, you release us from and indemnify us against all losses and liabilities arising from any payment or action we make based on any instruction (even if not genuine) that we receive by an electronic communication bearing your identity and which appears to indicate to us that the communication has been provided by you (e.g. a signature which is apparently yours or that of an authorised signatory for the investment or an email address which is apparently yours). You also agree that neither you nor anyone claiming through you has any claim against us or the Fund in relation to any such payment or action. There is a risk that a fraudulent withdrawal request can be made by someone who has access to your investor code and a copy of your signature or your email address. Please take care.

Unit Pricing

The unit price for Units is calculated as at the close of business every Business Day. The unit price is an amount equal to the Net Asset Value of the Fund (as at that Business Day) divided by the total number of Units on issue. The issue price and the withdrawal price are adjusted to take account of transaction costs (please see section 4 of this Guide for further details about transaction costs).

Issue price

If an application for Units made through an Application Form is received and accepted by us by 4 p.m. Melbourne time on a Business Day, it will be processed at the issue price effective for that Business Day. If, while the Fund is admitted as an mFund Product, you apply by your ASX mFund participating broker submitting an order through CHESS, the order must be received and confirmed by us by 11:15am Melbourne time on a Business Day for you to be issued Units at the issue price effective for that Business Day. The issue price is an amount equal to the Net Asset Value per Unit (calculated as at that Business Day), plus any transaction costs.

Withdrawal price

Withdrawal requests received and accepted by us by 4 p.m. Melbourne time on a Business Day will be processed at the withdrawal price effective for that Business Day. If, while the Fund is admitted as an mFund Product, you apply for a withdrawal by your ASX mFund participating broker submitting a withdrawal request through CHESS, the request must be received and confirmed by us by 11:15am Melbourne time on a Business Day for you to receive the withdrawal price effective for that Business Day. The withdrawal price is an amount equal to the Net Asset Value per Unit (calculated as at that Business Day), less any transaction costs.

Information on unit pricing (including issue prices and withdrawal prices) is also available by calling us on 1800 996 456 (International +61 3 8656 1000), or by accessing our website at www.apngroup.com.au.

The unit price for the Fund may vary and may increase or decrease depending on the performance of the Fund. We have adopted a unit pricing policy which sets out how we make certain decisions in calculating the unit price. A copy of the unit pricing policy with any discretions exercised by us in respect of the Fund (and any departures from the policy) is available free of charge on request and is also available on our website.

All unit prices are set by APN FM. The mFund Settlement Service is not a trading facility and investors will not trade Units with other investors on the market. While the Fund is admitted as an mFund Product, you will be able to view the current price of Units at any time at www.mfund.com.au. Please also consult with your ASX mFund participating broker who may also make pricing information available through their portfolio management systems.

Valuation of the Fund's assets

APN FM may determine valuation methods and policies for each category of asset held by the Fund. Unless APN FM determines otherwise, the value of an asset for the purpose of calculating Net Asset Value will be its market value.

Where APN FM values an asset at other than its market value, or where there is no market value, the valuation methods and policies applied by APN FM will be capable of resulting in a calculation of the issue price or withdrawal price that is independently verifiable by the Fund's auditor in accordance with ASIC policy.

Income distributions

The Fund will earn income from its various investments, which may include dividends and distributions. The Fund may also make gains and incur losses from the sale of its investments. Generally, net income is accrued and distributed at the end of each distribution period. The distribution period is intended to be monthly. Income distributions are usually paid within 10 Business Days following the end of a distribution period.

The amount of distribution paid to each investor is calculated by dividing the total amount to be distributed in respect of Units, which is determined by us, by the total number of Units on issue at the distribution date and multiplying the result by the number of Units held by the relevant investor on that distribution date. In determining the distributable amount per Unit our current distribution policy is to maintain, as far as possible, a stable and sustainable level of distributions. Consequently, the distributable amount for a period may be either more or less than the taxable income of the Fund for that period. However, it is our intention to ensure that the total income distributions or attribution for a financial year are at least equal the taxable income for that financial year.

If you withdraw your investment prior to the distribution date, you will not receive any distribution for the period you held the relevant Units in that period. However, the withdrawal price of your Units should incorporate the distribution entitlement for the period up to the withdrawal date.

The distributions made during each financial year (12 months to 30 June) will include the taxable portion of any capital gains earned by the Fund for that year. The amount of the income distribution attributed to taxable capital gains will be notified to you in your annual taxation statement.

You may elect (see section 5 of the Application Form) to have your income distributions:

- paid by electronic funds transfer into your nominated Australian bank, building society, or credit union account;
- reinvested in additional Units at the issue price current as at the commencement of the next distribution period following the distribution period for which the distribution is made; or
- a combination of the above.

You may change your distribution instructions by notifying us in writing at least 30 days before the end of the relevant distribution period.

Distributions will not be made by cheque. If after attempting to pay any distribution into your nominated account, the payment, for whatever reason, is not able to be effected, we will reinvest the amount of the distribution in additional Units into your investment account. If your income entitlement is less than \$50, we may at our discretion decide to reinvest all of your distribution entitlement.

Withdrawing from the Fund

You may request to withdraw your Units by sending a written withdrawal request signed by the appropriate signatories (including by facsimile, email and internet - refer to "Electronic Instructions" in section 1 "How the APN AREIT Fund Works" of this Guide) and your bank details.

Alternatively, while the Fund is admitted as an mFund Product, you can withdraw your investment in the Fund by lodging a request to withdraw Units with your ASX mFund participating broker (or your financial adviser who uses a stockbroking service on your behalf).

Your ASX mFund participating broker will direct the withdrawal request to us through CHESS. Applications for withdrawals received and accepted by us will be forwarded by CHESS to your ASX mFund participating broker with the withdrawal payment date and the withdrawal price as notified by us. When your withdrawal payment is passed through the CHESS daily batch settlement process, the Units will be cancelled and your HIN will be updated.

The minimum withdrawal amount is \$1,000 (subject to change at our discretion). If a withdrawal request is received which would result in you holding less than the minimum withdrawal amount, we may withdraw your entire investment. Withdrawal proceeds will only be paid to a nominated bank account. Cheque withdrawals are not available to investors.

Withdrawal proceeds will normally be paid within three Business Days of receipt of a withdrawal request. The Constitution permits a 30 day period, which may be extended in certain circumstances such as if, despite taking reasonable steps, we are unable to realise sufficient assets to satisfy a withdrawal request or where we believe that it is in the best interests of unitholders to delay satisfaction of the withdrawal request.

Changes to cut-off times

We may change cut-off times for applications and withdrawals or delay the processing of applications and withdrawals at our discretion, subject to the Corporations Act or the Constitution.

Changes to application and withdrawal cut-off times will be updated on our website www.apngroup.com.au or as otherwise required under the law.

Application of the mFund Settlement Service

APN FM is a Foundation Member of the mFund Settlement Service. Where and while the Fund is admitted as an mFund Product under the ASX Operating Rules, investors will be able to buy and sell Units through the mFund Settlement Service. The service uses CHESS, ASX's electronic settlement system, allowing automated issuing and withdrawing of Units through your ASX mFund participating broker. Through CHESS, your Units are held electronically and can be linked to the same Holder Identification Number (HIN) used to hold any other investments and securities you may hold through the ASX. You will receive a consolidated report from ASX summarising all your holdings in listed securities as well as your Units.

2 Benefits of investing in the APN AREIT Fund

Additional benefits of investing in the Fund

In addition to the key benefits outlined in section 3 “Benefits of investing in the APN AREIT Fund” in the PDS, the additional potential benefits of an investment in the Fund include:

- **Investment in a regular income stream**
Investment in commercial property through listed property securities is predominantly an income investment. We aim to provide a relatively high income stream distributed monthly as well as providing some capital growth over a 5 - 7 year time horizon.
- **Diversification**
Unlike investing in a single investment property, by investing in a property securities fund you enjoy the benefits of a wide spread of properties owned by the underlying funds. This provides you with geographic, sector (e.g. retail, office and industrial) and tenant diversification.
- **Managed funds investment opportunities**
The relatively large amounts of money which may be invested by the Fund allows access to investment opportunities, markets and diversity which may not be available to individual investors. Managed funds can also often invest at a lower cost and are often able to access investment and risk management techniques not available to individual investors.
- **Investment specialists**
The Fund is actively managed by APN FM, a specialist funds manager with significant experience and specialist expertise in property investment markets.
- **Tax deferred income**
Part of the Fund's income received may be tax deferred. This is a feature of property securities investments and means you don't pay tax on this portion of income until your holding in the Fund is sold or your cost base has been reduced to zero.
- **Flexibility**
You can withdraw or top up your investment with additional contributions at any time in normal market conditions, subject to the respective minimum withdrawal and additional investment amounts.

Investor communications

Unless you invest through an IDPS or IDPS-like service (such as a master trust, wrap account, nominee or custody service), you will receive or have access to the following acknowledgements, statements and reports relating to your investment in the Fund:

Transaction statements	A confirmation statement for each application for Units or withdrawal request made by you. A copy of each transaction statement will be forwarded to the financial adviser whose stamp is affixed to the Application Form (if any).
Distribution statements	A confirmation statement sent quarterly, detailing income distributions paid to you or reinvested in additional Units and the balance of your investment at the end of the distribution period.
Annual taxation statement	An annual statement which confirms distributed income and its components for the last financial year.
Annual report	Yearly report to investors including the Fund's audited financial statements.
Newsletters	Rooftop investor magazine and regular eNewsletters, detailing fund specific and market information.
Fund information	Daily unit pricing, performance history and Fund updates are available from www.apngroup.com.au

If you invest through the ASX mFund Settlement Service while the Fund is admitted as an mFund Product, you will receive or have access to the following information relating to your investment in the Fund:

CHESS statement	A consolidated report issued by ASX at the end of the month whenever there is a change in the number of Units.
Pricing information	The current price of Units at any time is available from www.mfund.com.au

Continuous disclosure

The Fund is currently a disclosing entity under the Corporations Act and is therefore subject to regular reporting and disclosure obligations. Investors (but not indirect investors investing through an IDPS or IDPS-like service) will have a right to obtain a copy, free of charge, of any of the following documents:

- the most recent annual financial report;
- any half yearly financial report lodged with ASIC after the lodgment of that annual financial report but before the date of the Guide; and
- any continuous disclosure notices lodged with ASIC after that financial report but before the date of this Guide.

These documents can also be obtained from or inspected at an ASIC office.

3 Risks of managed investment schemes

There are a number of risks associated with the Fund and the underlying investments of the Fund. To the extent that it is possible, APN FM intends to implement measures to limit risks associated with the Fund and its underlying investments.

The significant risks of investing in the Fund are set out in section 4 “Risks of managed investment schemes” of the PDS. The following table contains a summary of the measures proposed by APN FM to manage the significant risks identified in the PDS.

Fund specific risks

Description of risk	How APN FM proposes to manage the risk
Fund risk. These are risks specific to funds. These risks include that the Fund could terminate; the fees and expenses of the Fund could change; APN FM may be replaced as responsible entity and manager; APN FM’s investment team may change; or that investing in the Fund may lead to a different result than investing in the market personally.	APN FM aims to keep fund risk to a minimum by monitoring the Fund and the investments of the Fund at all times and acting in investors’ best interests.
Key person risk. This is the risk that key individuals are no longer able to fulfill their obligations in respect of the investment or administration of the Fund.	APN FM aims to ensure that all managers are highly qualified and capable of mitigating individual key personnel risk. APN FM will ensure that it has sufficient resources to enable the Fund to continue unaffected should any member of the APN FM team be unable to fulfill their obligations.
Regulatory risk. This is the risk that domestic or international laws or regulations are changed adversely or that regulatory supervision of transactions and reporting is performed by managers and their custodians at less than an appropriate standard.	Regulatory risk is managed by APN FM by regularly and closely reviewing changes in the law and seeking expert legal advice where necessary.
Derivative risk. Risks associated with investing in derivatives may include the value of the derivative failing to move in line with an underlying investment; potential illiquidity of the derivative; the Fund not being able to meet payment obligations as they arise; and counterparty risk (that is, where the counterparty to the derivative contract cannot meet its obligations under the contract).	APN FM mitigates this risk by maintaining a policy of not using derivatives.
Administration risk. This is the risk that instructions in relation to your investments in the Fund have not been accurately relayed or processed or that fraudulent instructions are acted upon.	APN will follow reasonable electronic instructions in good faith. Whilst we cannot always detect fraudulent instructions we will apply best endeavours to mitigate this risk.
Liquidity risk. Liquidity risk is the risk that the Fund’s assets will not be able to be sold readily or for their fair value.	The Fund only invests in AREITs which are listed on the ASX. APN FM will continuously monitor cash levels and the investments of the Fund with the aim to preserve liquidity.

Underlying investment specific risks

Description of risk	How APN FM proposes to manage the risk
Re-financing risk. This is the risk that, in times of poor market liquidity, AREITs in which the Fund invests may find it difficult to re-finance.	To the extent possible, APN FM aims to reduce this risk by assessing the financial structures and gearing levels of the AREITs in which the Fund may invest, and if deemed appropriate, limiting investment in AREITs with inadequate financing facilities and unacceptable levels of debt.

Underlying investment specific risks *continued...*

Description of risk	How APN FM proposes to manage the risk
<p>Investment risk. The underlying investments of the Fund may fall in value.</p>	<p>APN FM aims to reduce investment risk by limiting exposure to any one investment and with careful analysis of and research into the management of the underlying investment prior to investing on behalf of the Fund. APN FM holds regular meetings with investment managers to ensure that the underlying investments and investment process remains consistent with the investment objectives of the Fund.</p>
<p>Market risk. Economic, technological, political or legal conditions and market sentiment can lead to volatility in the value of property investments and the overall level of liquidity in the market.</p>	<p>To the extent possible, APN FM aims to reduce this risk by continuously engaging in research and analysis to form a view of the market.</p>
<p>Interest rate risk. Changes in interest rates can have a positive or negative impact directly or indirectly on the Fund's investment values or returns.</p>	<p>To the extent possible, APN FM aims to reduce this risk by assessing the financial structures and gearing levels of the AREITs in which the Fund may invest, and if deemed appropriate, limiting investment in AREITs with high levels of debt which would result in high levels of interest rate risk.</p>
<p>Currency risk. The Fund may invest in AREITs which hold underlying investments in countries other than Australia. If the value of overseas currencies changes relative to the Australian dollar, the value of the investments of the Fund may change.</p>	<p>APN FM aims to reduce this risk by minimizing our exposure to offshore markets. APN FM will take into account an investment manager's currency management strategy when selecting investments for the Fund. Refer also to Derivative risk below.</p>
<p>Asset risk. Asset risk is risk related to market changes or poor investment performance of an asset.</p>	<p>As the Fund invests primarily in AREITs, diversification among various asset classes is generally inconsistent with the Fund's investment objective. The Fund mitigates asset risk by seeking to invest in a portfolio of high quality AREITs diversified by sector, tenant and location. APN FM will continually assess the quality of the Fund's investments.</p>
<p>Derivative risk. The use of derivatives by the underlying investments in which the Fund is invested may cause those AREITs to lose money which they would not have otherwise lost had they not used derivatives.</p>	<p>APN FM will take into account management's use of derivatives when selecting investments for the Fund.</p>
<p>Information risk. Information risk is the risk of investors not being fully informed of pertinent, price sensitive information about offshore investments or markets. Information risk can relate to political, town planning, business or even cultural issues. Information risk is particularly relevant for AREITs with non-Australian assets. If any of the underlying investments in which the Fund invests do not have all of the necessary local information, the returns that an investor receives from the Fund and the value of their investment in the Fund may be reduced.</p>	<p>APN FM will only consider investing in AREITs holding offshore assets where management demonstrates satisfactorily to APN FM their ability to manage information risk. APN FM accesses research from independent market participants to assist in verifying information where possible.</p>
<p>Regulatory risk. This is the risk that, in respect of the Fund's underlying investments, domestic or international laws or regulations are changed adversely or that regulatory supervision of transactions and reporting is performed by managers and their custodians at less than an appropriate standard.</p>	<p>These risks are managed by APN FM by regularly and closely reviewing changes in the law and seeking expert legal advice where necessary.</p>
<p>Key personnel risk. This is the risk that key individuals responsible for the operation of underlying investments in which the Fund invests are no longer able to fulfill their obligations in respect of underlying investments in which the Fund may invest.</p>	<p>APN FM will take into account the qualification and capability of managers of the underlying investments in which the Fund invests. APN FM will favourably consider AREITs that are able to demonstrate that they have sufficient resources to enable the entity to continue unaffected should any member of the investee entity's team be unable to fulfill their obligations.</p>

4 Fees and costs

This table shows fees and other costs that you may be charged. These fees and costs may be deducted from your money, from the returns on your investment or from the Fund assets as a whole.

Information about taxes is set out in section 5 of this Guide.

You should read all the information about fees and costs because it is important to understand their impact on your investment.

Type of fee or cost	APN AREIT Fund amount	How and when paid
Fees when your money moves in or out of the Fund¹		
Establishment fee The fee to open your investment	Nil	Not Applicable
Contribution fee The fee on each amount contributed to your investment	Nil	Not Applicable
Withdrawal fee The fee on each amount you take out of your investment	Nil	Not Applicable
Exit fee The fee to close your investment	Nil	Not Applicable
Management costs		
The fees and costs for managing your investment ²	Up to 0.85% p.a. of the Net Asset Value of the Fund. The management costs comprise the investment management fees, expense recoveries and indirect costs and are capped at 0.85% of the Net Asset Value of the Fund.	The investment management fee is accrued daily and payable monthly out of the assets of the Fund. Expense recoveries are payable as incurred and deducted out of the Fund's assets. Indirect costs ³ are paid out of the Fund's assets or interposed vehicles' assets when the cost is incurred and are reflected in the unit price.
Service fees		
Investment switching fee The fee for changing investment options	Nil	Not Applicable

1 You may also incur a buy-sell spread when your money moves in or out of the Fund. See item 1 in the Additional Explanation of Fees and other Costs section on page 6 and 7 of this Guide for an explanation of the buy/sell spread.

2 This amount can be negotiated by wholesale clients as defined under the Corporations Act and in other circumstances permitted by law. See item 8 in the Additional Explanation of Fees and Costs section on page 7 of this Guide for further information.

3 Indirect costs are 0.00% based on APM FM's reasonable estimate of such costs at the date of the PDS.

Additional explanation of fees and costs

1. Buy/sell spread and transaction costs

Investments in, and withdrawals from, managed funds such as this Fund are commonly subject to a buy/sell spread, which is a reflection of the transaction costs incurred by us as the responsible entity of the Fund in buying and selling assets when Units are issued or redeemed. These transaction costs are additional costs to the investor and are recovered in whole through the buy/sell spread disclosed on page 7.

The application of the buy/sell spread aims to ensure that each investor bears the same proportion of transaction costs associated with their entry to, or exit from, the Fund. The buy/sell spread is charged because entering or exiting the Fund may necessitate the purchase or disposal of assets by the Fund. We will not receive any part of the buy/sell spread.

The amount of the buy/sell spread represents an estimate by us, as the responsible entity, of the transaction costs that are likely to be incurred when buying or selling assets, such as brokerage, government charges, taxes (including stamp duty), commissions, underlying investments' buy/sell spread and like costs. Such costs are incurred in the day-to-day management of the Fund and are paid directly from the Fund.

The expected buy/sell spread of the Fund is set out in the table below and represents the total transaction costs of the Fund. The buy spread is included in the issue price and the sell spread is included in the withdrawal price.

APN AREIT Fund	
Buy/Sell Spread	0.50%
Buy Spread	0.25%
Sell Spread	0.25%

Example of buy/sell spread

The following illustrates in dollar terms the amount you are likely to pay by way of buy and sell spreads in respect of your investment. The examples are based on investments in or withdrawal from the Fund valued at \$50,000:

$\$50,000 \times 0.25\% = \125 when you invest in the Fund

$\$50,000 \times 0.25\% = \125 when you withdraw from the Fund

However, APN FM may increase or decrease the buy and sell spreads from time to time to reflect increases or decreases in the costs and expenses associated with the acquisition and disposal of assets by the Fund. All investors will be provided with at least 30 days notice of any changes and updated issue prices and withdrawal prices, and the relevant buy/sell spreads will be available to be obtained from our website www.apngroup.com.au or by contacting us directly.

Bid/ask spread

Given the nature of the Fund's assets, we estimate the bid/ask spread will be nil.

2. Management costs

The management costs outlined in the fees and other costs table on page 6 include amounts payable for expense recoveries (discussed at item 6) for administering the Fund, custodian fees, investment management fees payable to us and indirect costs. They do not include buy/sell spreads, transaction costs and costs (related to a specific asset or activity to produce income) that an investor would incur if the investor invested directly in the underlying investment.

The benefit of any tax deductions in respect of the management fees will not be passed on to you in the form of a reduced fee or cost.

The management costs set out in the table on page 6 are an estimate only and the actual management costs could vary subject to an overall management costs cap of 0.85% p.a. The management cost cap does not apply to unusual or non-recurrent expenses (for example, expenses in relation to holding unit holder meetings, amendments to the Constitution and costs associated with legal proceedings). Unusual and non-recurrent expenses will be charged to the Fund in addition to any other management costs incurred. Management costs include all indirect costs, including the costs of investing through 'interposed vehicles', as required by ASIC Class Order [CO 14/1252] (as amended by the ASIC Corporations (Amendment) Instrument 2016/1224 and the ASIC Corporations (Amendment and Repeal) Instrument 2015/876), which applies to this PDS.

3. Expense recoveries

We are entitled under the Constitution to be reimbursed out of the assets of the Fund for a broad range of costs and expenses properly incurred in relation to the Fund. These expenses typically include costs incurred in connection with the establishment of the Fund, unit registry and custodial services, investor communications, unit pricing, auditors' fees, compliance costs associated with being included on various IDPS lists and PDS preparation. A list of expenses that may be reimbursed to us out of the Fund is set out in the Constitution.

A copy of the Constitution may be obtained from us on request. We are also entitled to be indemnified out of the Fund for any liability properly incurred by us in operating the Fund. Expense

recoveries in the Fund are included in the management costs set out in the fees and costs table on page 6.

4. Adviser remuneration

If a financial adviser is consulted, you may nominate that a portion of your application money be paid to your adviser for financial advice provided by your adviser (i.e. adviser service fee). APN FM will deduct the nominated amount of the adviser service fee from your application monies and invest the balance of the application money in the Fund. You should refer to the Statement of Advice issued by your financial adviser in relation to the details of the fees that may be payable.

Under the Federal Government's Future of Financial Advice (FOFA) reforms, APN FM may be prohibited or limited from paying certain types of conflicted remuneration to advisers. APN FM will not make payment of adviser service fees agreed between you and your adviser if we are prohibited from doing so under those FOFA reforms.

5. Fees for use of the mFund Settlement Service

Where and while the Fund is admitted as an mFund product, additional fees may also be payable directly to your ASX mFund participating broker (or your financial adviser who uses a stockbroking service on your behalf) for using the mFund Settlement Service. Investors should consider the financial services guide provided by their ASX mFund participating broker (or adviser).

Example of management costs

The following illustrates in dollar terms the amounts you are likely to pay by way of management costs in respect of an investment, per annum, inclusive of GST net of input tax credits, based on an investment in the Fund valued at \$50,000:

$\$50,000 \times 0.85\% \text{ p.a.} = \425 p.a.

6. Winding up fee

Under the Constitution, we are permitted to charge a winding up fee of up to 1% of the gross asset value of the Fund on the date of termination.

Example of winding up fee

The following illustrates in dollar terms the amounts you are likely to pay by way of a winding up fee upon winding up of the Fund, based on your net realised proceeds on winding up of the Fund being valued at \$50,000.

$\$50,000 \times 1\% = \$500.$

7. GST

All fees stated in the PDS and this Guide are inclusive of GST less any input tax credits, unless otherwise stated. Fees have been calculated using the currently applicable rate of GST and reduced input tax credits. Any changes in relation to the GST rate or the reduced input tax credits rate may be an additional cost to the Fund. Information in relation to GST is set out in section 5 of this Guide.

8. Different fees for different investors

Subject to the Corporations Act and the Constitution, we may negotiate lower or different fees in certain circumstances, with certain investors, including with respect to wholesale clients as defined in the Corporations Act or where we have specified a total period of time during which an investor has held Units.

9. Taxes

Information in relation to tax is set out in section 5 of this Guide.

5 How managed investment schemes are taxed

Investing in a registered Managed Investment Scheme (“MIS”) is likely to have tax consequences. Each investor must take full and sole responsibility for the associated taxation implications arising from an investment in the Fund, including any change in the taxation implications arising during the term of their investment. It is recommended that investors obtain their own professional and independent taxation advice before investing in the Fund.

The following provides a summary of the general Australian taxation implications for an investment by an Australian resident individual investor who holds their Units on capital account. Each investor's taxation position will depend on their individual circumstances and accordingly this summary is necessarily general in nature.

This summary is based on the income tax law as at the date of this Product Guide. However, it is noted that income tax laws can change at any time, which may have adverse taxation consequences for investors concerned.

Income tax

The income tax treatment of the Fund and its investors will depend on whether APN FM elects to apply the Attribution Managed Investment Trust (“AMIT”) provisions, being a new elective income tax regime for qualifying managed investment trusts (“MIT”).

APN FM may make an irrevocable election to apply the new AMIT regime. However, there is no guarantee that the Fund will qualify to apply the new provisions in any particular year of income.

Therefore, the section below outlines both the general income tax treatment where the AMIT provisions do not apply, and the general income tax treatment where the AMIT provisions do apply.

Income tax (non-AMIT regime)

Income tax treatment of the Fund

Broadly, the Fund should not be liable to pay Australian income tax on taxable income derived by the Fund (including assessable income or capital gains). This is provided that investors are made presently entitled to all of the Fund's income in each year and that the Fund limits its activities to conducting (or controlling) “eligible investment businesses” for Australian income tax purposes. It is intended that the Fund will be administered to achieve these outcomes.

Income tax treatment of investors

An investor must include their share of the Fund's net taxable income for the financial year in their income tax return (including reinvested income) in the year in which their entitlement to the income arises, even if some or all of that income is distributed after year end.

The tax components making up the net taxable income of the Fund will typically comprise of interest, dividends, franking credits, capital gains and other types of income.

Tax-deferred components

A portion of the Fund's distributable income may include non-assessable amounts that are derived from the Fund's investment in AREITs. These can include, for example, certain distributions in respect of building capital allowances tax deductions and non-assessable capital gains.

The Fund aims to distribute these income tax advantaged components (non-assessable amounts). This information will be detailed in the tax statement sent to investors.

Certain non-assessable distributions to an investor (such as amounts attributed to the building capital allowance tax deduction) will reduce the cost base of the investor's Units. This will be relevant when calculating the capital gain or loss (for capital gains tax purposes) on a subsequent disposal of Units (e.g. on a redemption of Units on withdrawal of the investment).

In addition, if these non-assessable distributions exceed the cost base of an investor's Units, the investor will realise a separate capital gain.

Dividends

Investors in the Fund may receive, as part of their distribution, franking credits attached to franked distributions received by the Fund.

Franking credits received will not represent part of your cash distribution, but must be included as assessable income in your tax return.

You may be eligible for a tax offset for franking credits received, which can reduce your tax liability. However, the extent to which you will receive franking credits will be subject to relevant franking credit integrity provisions, such as the 45-day holding rule.

Income tax (the AMIT regime)

About the regime

The Government has passed legislation dealing with the income tax treatment of a qualifying MIT. The legislation can apply from 1 July 2016, where the Fund qualifies as an AMIT and makes an irrevocable election to apply the new regime.

In order to qualify as an AMIT, the trust must be a MIT for income tax purposes and the investors must have clearly defined rights to income and capital. The Fund believes that it should be in a position to qualify as an AMIT for taxation purposes in order to make the appropriate election.

It is noted that while these elections are irrevocable, they will only apply in an income year where the Fund qualifies as both a MIT and an AMIT.

APN FM does not consider that the new regime will materially change the way in which investors will be taxed. However, APN FM believes that the new regime will provide more certainty on the application of the income tax provisions to the Fund and its investors. To the extent that the Fund does not qualify as either a MIT or an AMIT in that year of income, the non-AMIT trust taxation provisions (as outlined earlier) will apply.

Income tax treatment of the Fund

Under the AMIT regime, the Fund will be considered a flow-through vehicle. Accordingly, irrespective of whether income or capital is distributed to investors, Australian income tax will not be payable by APN FM on the taxable income derived by the Fund (including assessable income and capital gains).

Income tax treatment of investors

The AMIT provisions require the taxable income of the Fund to be attributed to the investors on a fair and reasonable basis having regard to their income and capital entitlements in accordance with the Constituent documents.

The tax components allocated to investors will typically comprise of interest, dividends, franking credits, capital gains and other types of income. This information will be detailed in an AMMA tax statement, which will be sent annually to investors after year-end.

Cost base adjustments

Under the AMIT regime, an investor's cost base in their Units held is increased where taxable income is "attributed" to them (inclusive of the tax free component of a discount capital gain).

The cost base is decreased where cash distribution entitlements are made to the investor in respect of the Units, irrespective of whether the amounts distributed are classified as income or capital. Additional reductions are made for certain tax offsets (such as the franking credit tax offset and foreign income tax offset).

To the extent that the cost base is reduced below zero, a taxable capital gain will accrue to the investor.

The net cost base adjustment amount will be detailed in an AMMA tax statement, which will be sent annually to investors after year-end.

Tax-deferred components

A portion of the Fund's distribution income may include Tax deferred components as per the non-AMIT trust taxation provisions (as outlined earlier). Where there are tax deferred components, these amounts will not be assessable as ordinary income, but will result in cost base adjustments as outlined above under the AMIT provisions. Where required, the tax deferred components will be detailed in the AMMA tax statement.

Dividends

The income tax treatment of dividends and associated franking credits received as part of your distribution would be as per the non-AMIT trust taxation provisions (as outlined earlier).

Capital gains tax

Under the capital gains tax provisions, any taxable capital gain arising from the disposal of an investor's Units (e.g. through a redemption, withdrawal, sale, etc) may form part of their assessable income.

An investor may be eligible for the discount capital gains tax concession if the Units are held for 12 months or more and the investor is an individual, trustee or complying superannuation fund. Investors should consult their tax adviser about the capital gains tax implications of a redemption of Units.

If an investor carries on a business of trading in Units or securities, they may be assessed in relation to dealings in Units as ordinary income rather than under the capital gains tax provisions. In such cases the investor will not be eligible for the discount capital gains tax concession.

To the extent that capital gains to which an investor becomes entitled are not assessable as a result of the discount capital gains tax concession, no adjustment to the cost base of their Units will be required.

Disposal of units

Under the capital gains tax provisions, any taxable capital gain arising from the disposal of an investor's Units (e.g. through a redemption, withdrawal, sale, etc) may form part of their assessable income.

An investor may be eligible for the discount capital gains tax concession if the Units are held for 12 months or more and the investor is an individual, trustee or complying superannuation fund. Investors should consult their tax adviser about the capital gains tax implications of a redemption of Units.

If an investor carries on a business of trading in Units or securities, they may be assessed in relation to dealings in Units as ordinary income rather than under the capital gains tax provisions. In such cases the investor will not be eligible for the discount capital gains tax concession.

Foreign income

Investors will be required to include foreign income received through the Fund in their assessable income, grossed up for any foreign tax paid by the Fund on such income.

Where the Fund pays foreign tax in respect of income, the investor may be eligible for a foreign income tax offset ("FITO") for all or part of the foreign tax paid. The amount of FITO will be detailed in the tax statement provided to an investor.

Annual Reporting

The Fund will provide annual tax distribution information in accordance with the ATO's guidelines for MITs. The tax distribution information will reconcile the cash distribution with the taxable distribution for the income year. Where the Fund is an AMIT, the Fund will provide an AMMA tax statement as required by the provisions.

Stamp duty

The issue, redemption, transfer or any other arrangement involving a change in the unitholding of the Fund may result in Australian stamp duty consequences. Investors should confirm the duty consequences of their dealings in Units with their taxation advisors.

GST

The acquisition and disposal of Units in the Fund by the respective investors will not be subject to GST. However, GST may apply if fees are charged to the Fund by the Trustee or Investment Manager. In such a case, the Fund may be eligible to claim a Reduced Input Taxed Credit ("RITC") of either 75 per cent or 55 per cent of the GST paid on some of the fees charged to the Fund, depending on the type of fee.

Tax File Number (TFN) and Australian Business Number (ABN)

It is not compulsory for an investor to quote their TFN or ABN. If an investor is making an investment in the Fund in the course of a business or enterprise carried on by them, the investor may quote an ABN instead of a TFN. Failure by the investor to quote an ABN or TFN or claim an exemption may oblige APN FM to withhold tax at the top marginal rate (including Medicare levy) on gross payments (including distributions of income) to the investor.

Non-resident investors

General

The following is a general discussion of the Australian income tax issues as at the date of this Product Guide relevant to a direct investment by an investor in the Fund who is not a tax resident of Australia. It is not a discussion about the tax issues that may apply in any other country.

Investors who are not tax residents of Australia should obtain their own independent tax advice about how their investment in the Fund will be taxed in Australia and the jurisdiction in which they are a tax resident.

Capital gains tax

Capital gains realised upon the disposal or redemption of Units owned by non-resident investors will be subject to Australian capital gains tax if the Units are taxable Australian property. This will generally be the case where the relevant non-resident investor has a "non-portfolio interest" in the Fund (i.e. greater than 10% interest) and more than 50% of the market value of the Fund's assets are attributable to Australian real property.

Australian withholding tax

If you are not an Australian resident for income tax purposes, withholding tax may be deducted on the amount distributed or attributed to you at the appropriate rate by the Fund. The amount that is withheld by the Fund will depend on the character of the income, whether the Fund qualifies as a Withholding MIT, and the non-resident's place of payment or address or their country of residence.

A MIT fund payment typically refers to Australian sourced rents and capital gains derived (directly or indirectly) from Australian real property. Where the Fund distributes a MIT fund payment to investors, the Fund may qualify in applying a final reduced withholding tax rate. This reduced rate may be either 15% (for investors in exchange of information ("EOI") countries) or 30% (for non-EOI countries).

The rate of withholding tax on interest and dividend income with an Australian source (which is also a final withholding tax) is determined separately and may be reduced under relevant tax treaties.

There are also certain capital gains and foreign sourced income that may not be subject to Australian withholding tax.

The tax paid may not constitute a final tax and non-resident investors may be required to lodge an Australian tax return. Non-resident investors may also be subject to tax in the country of their residence (but could be eligible to claim a credit for Australian withholding tax paid).

APN FM strongly suggests non-resident investors obtain their own tax advice.

Foreign Account Tax Compliance Act and Common Reporting Standard

As a result of the signing of the Intergovernmental Agreement between Australia and United States (US) in relation to compliance with the Foreign Account Tax Compliance Act (a US statute), APN FM is required to collect and report information about investors who are US tax residents or entities that invest on behalf of US tax residents to the Australian Taxation Office (ATO). This information may be forwarded by the ATO onto the US Internal Revenue Service. To assist us in complying with these obligations, we may request certain information from you.

The Common Reporting Standard ("CRS") is the single global standard for the collection, reporting and exchange of financial account information of non-residents, which applies to calendar years ending after 1 July 2017. Under CRS, the Fund may need to collect and report financial account information of non-residents to the ATO. The ATO may exchange this information with the participating foreign tax authorities of those non-residents.

8 Investing by New Zealand investors

8.1 General

This offer to New Zealand investors is a regulated offer made under Australian and New Zealand law. In Australia, this is Chapter 8 of the Corporations Act 2001 (Aust) and regulations made under that Act. In New Zealand, this is subpart 6 of Part 9 of the Financial Markets Conduct Act 2013 and Part 9 of the Financial Markets Conduct Regulations 2014.

This offer and the content of the offer document are principally governed by Australian rather than New Zealand law. In the main, the Corporations Act 2001 (Aust) and the regulations made under that Act set out how the offer must be made.

There are differences in how financial products are regulated under Australian law. For example, the disclosure of fees for managed investment schemes is different under the Australian regime.

The rights, remedies, and compensation arrangements available to New Zealand investors in Australian financial products may differ from the rights, remedies, and compensation arrangements for New Zealand financial products.

Both the Australian and New Zealand financial markets regulators have enforcement responsibilities in relation to this offer. If you need to make a complaint about this offer, please contact the Financial Markets Authority, New Zealand (<http://www.fma.govt.nz>). The Australian and New Zealand regulators will work together to settle your complaint.

The taxation treatment of Australian financial products is not the same as for New Zealand financial products.

If you are uncertain about whether this investment is appropriate for you, you should seek the advice of an appropriately qualified financial adviser.

Currency exchange risk

The offer may involve a currency exchange risk. The currency for the financial products is not New Zealand dollars. The value of the financial products will go up or down according to changes in the exchange rate between that currency and New Zealand dollars. These changes may be significant.

If you expect the financial products to pay any amounts in a currency that is not New Zealand dollars, you may incur significant fees in having the funds credited to a bank account in New Zealand in New Zealand dollars.

Dispute resolution process

The dispute resolution process described in this offer document is available only in Australia and is not available in New Zealand.

The above are prescribed statements required pursuant to the Financial Markets Conduct Regulations 2014.

8.2 Applications and distributions

If you credit New Zealand dollars to our application account you may incur an unfavourable currency conversion rate and you will also have to pay any applicable fees. You can avoid these fees by only crediting Australian dollars. If you are a New Zealand resident investing in the Fund, any distributions will be paid to you in Australian dollars.

Units allocated to your account resulting from a distribution reinvestment will be allotted to you in accordance with the terms and conditions set out in the relevant PDS and the Constitution of the Fund.

You can request copies of the following documents:

- The most recent annual report.
- The most recent financial statement.
- The current PDS.
- The Constitution of the Fund and any applicable amendments. Copies of these documents can be obtained free of charge by contacting APN Investor Services on 1800 996 456 (International +61 3 8656 1000).

A distribution statement will be sent to you within 30 days from the date of the reinvestment of Units, which will include the amount of the distribution and the number of Units that have been allotted to you.
